

Why consider Cyber Liability insurance?

Learn more about this vital cover...

Unfortunately,
cyber crime is still

on the rise

**It may look
like (but is not
limited to)...**

**Is it likely to
happen to you?**

Hackers are becoming more advanced, and are constantly changing their tactics.

High profile breaches at supposedly 'tech savvy' businesses such as Talk Talk show that software breaches unfortunately **happen regularly**.

In fact, the 2015 British Crime Survey highlighted that fraud and cyber crime are the **most prevalent** crimes committed against people in England and Wales.

What is the impact on your business?

Companies store a lot of **sensitive customer data**.

If criminals get access to your company's databases and the data is breached, it could cost thousands of pounds in **fin**es and your reputation could be **damaged**.

**Fortunately,
Cyber Liability
insurance can
help**

CLEAR
INSURANCE MANAGEMENT

Cyber Liability insurance is specifically designed to **protect** you against the risks that come with using modern technology; risks that other types of business insurance **won't cover**.
